

Every 90 days, this fireplace timer pays IntraWest more than \$100 ... per room!

Electronic programmable timer for gas fireplaces

Model CCTMR

Tested for 2 years in more than 800 rooms and condos at Tremblant tourist resort!

Ideal for:

- Hotels
- Inns
- Condos
- Tourist Resorts
- Fireplace Stores
- Showrooms

The only electronic programmable timer for gas fireplaces on the market !

The easiest way of reducing your gas consumption!

Replace your gas fireplaces ON-OFF wall switches and see your energy costs melt like snow on embers.

Our timer is powered by batteries and in opposition to noisy mechanical timers, it is 100% silent.

Installation is fast. Only two wires to plug.

Installed in 2 minutes! Pays immediately!

Features

- For gas fireplaces equipped with a thermopile
- Choice of programming
- Easy to install (2 wires)
- Install on standard electrical boxes
- Passive energy saving
- Works better than a mechanical timer
- Zero noise
- Simple pushbutton to start fireplace
- Automatic interruption after a predetermined period
- Requires 3 X 1.5V AA batteries (included)
- Battery life: approximately 2 years
- Dimensions: 3-5/8" x 4-5/8" x 1-1/8"

Calculation of savings

Estimated cost of operation of a propane fireplace: \$ 0.70/hour

Automatic reduction of operating hours: 90 to 120 min / day

You cash in: \$95 to \$126 each 90 days PER FIREPLACE !
